

DELPHI

EH&S Specification Change Notice

Notification Date: May 28, 2013

Response Due: **NA**

Tracking #: DA-2006 and Global Specifications list Reference

Rule Title: Delphi Design in Specification

Regulation Authority: Delphi

Effective Date: June 1, 2013

Publication Type:

<input type="checkbox"/>	Advance Notice of Proposed Rulemaking (ANPRM)
<input type="checkbox"/>	Notice of Proposed Rulemaking (NPRM)
<input checked="" type="checkbox"/>	Final Rule Publication
<input type="checkbox"/>	Withdrawal of Rulemaking

Brief Description:

Amendments and corrections to the EH&S requirements are now updated onto the www.Delphisuppliers.com site under CORPORATE DOCUMENTS. Improvements were needed to align with the most current copies and the trend shift to pointing (linking) to International Standards rather than having Delphi's version. Also to clarify the EH&S requirements in one place for suppliers so they know what Delphi is looking for in machinery and equipment design in terms of EH&S requirements.

Delphi Action(s) Required:

Remove all older copies of the specifications and update the links to the site where they are stored now.
Finalize training packages for GSM, PC@L and ME.

Affected Competencies:

<input type="checkbox"/>	Customs
<input checked="" type="checkbox"/>	Engineering (Environmental)
<input checked="" type="checkbox"/>	Engineering (Packaging)
<input checked="" type="checkbox"/>	Engineering (Product / Design)
<input checked="" type="checkbox"/>	Global Supply Management
